

BPS ASM 2023 POSTER LIST

Pub Number	Topic	Title	Presenter
PP001	Acute Pain	Delayed onset of morphine antinociceptive tolerance in rats treated chronically with glycine transporter-1 inhibitors	Anna Rita Galambos
PP002	Acute Pain	Temporal trends and prescribing patterns of initial opioid prescriptions following colectomy, 2010-2019: a cross-sectional study from England	Reham Baamer
PP003	Acute Pain	Clinical hypnosis for Procedural Pain and Distress in Children: A Scoping Review	Dali Geagea
PP005	Acute Pain	Liposomal bupivacaine for peripheral nerve block in total knee arthroplasty: functional outcomes	Matthew Sinnott
PP006	Acute Pain	Improving length of stay and reducing reliance on intrathecal opioids using liposomal bupivacaine for total knee arthroplasty	Matthew Sinnott
PP008	Acute Pain	Liposomal bupivacaine for total knee arthroplasty: A case series	Muditha Mawathage
PP009	Acute Pain	Bilateral interscalene brachial plexus nerve block for shoulder reposition in ICU	Mirela Dobrić
PP010	Acute Pain	Effects of Rimegepant 75 mg on Monthly Migraine Days: a 52-Week, Open-Label Extension Study	Robert Pawinski
PP011	Acute Pain	Rimegepant for the acute treatment of migraine: Subgroup analysis from 3 phase 3 clinical trials by triptan treatment experience	Robert Pawinski
PP012	Acute Pain	Pridinol in muscle spasm associated with low back pain, neck pain and sciatica	Sreekumar Kunnumpurath
PP014	Assessment & Measurement	Using Real-Time Mobile Health Data to Characterise Pain Flares in Rheumatoid Arthritis	Ting-Chen Hsu
PP015	Assessment & Measurement	EEG as a measure of pain: an experimental study	Charlotte V Ide Walters
PP017	Assessment & Measurement	What do people living with musculoskeletal pain conditions describe about their pain? An exploratory analysis of electronic free text pain diaries	Syed Mustafa Ali
PP018	Audit and Service Evaluation	Establishment of a Transitional Pain Service in a District General Hospital	Katrina Margaret Dick
PP019	Audit and Service Evaluation	Audit of rapid access epidural pathway for acute severe sciatica	Namita Arora
PP020	Audit and Service Evaluation	Online Pain Education Sessions With and Without Dedicated Pain Medication and Collation of GP Appointments for Chronic Pain Pre and Post Online Group	Neil Clark
PP021	Audit and Service Evaluation	Persistent post-operative opioid use and opioid stewardship in Aberdeen: a cohort study	Sandra Hapca
PP022	Audit and Service Evaluation	Surgery and Opioids: Streamlining the Elective Patient Surgical Journey, A Service Improvement Project	Adah Mayfield
PP024	Audit and Service Evaluation	Goldilocks and the three patient information leaflets; how much information do patients think is 'just right' ?	Kathleen Hempenstall
PP025	Audit and Service Evaluation	One Stop Multi-speciality Chronic Postoperative Inguinal Pain Clinic – Implementation Outcomes.	Lucy Miller
PP026	Audit and Service Evaluation	Management of acute pain in Ghana compared to the UK	Michael Baslar
PP027	Audit and Service Evaluation	The Use of Healthcare Apps in the Modern Pain Clinic	Rhyall Hughes
PP028	Cancer Pain	Does Intrathecal Drug Delivery for Cancer Pain Reduce Pain Scores and Overall Analgesic Requirements at Three Months	Clare Bridgestock
PP030	Epidemiology	Multi-site chronic pain and cognitive function: a cross-sectional study of UK Biobank	Eoin Kelleher
PP031	Epidemiology	Adverse childhood experiences and adult pain: opportunities and limitations of existing cohort data	Kate A. Timmins
PP032	Epidemiology	Epidemiology of chronic shoulder pain in people aged 40 or older – a systematic review and meta-analysis of observational studies	Nouf Alotaibi
PP034	Experimental (Basic) Science	A Racially Diverse Set of Facial Expressions of Pain Demonstrated by Youth	Ama Kissi
PP035	Experimental (Basic) Science	Do individuals with chronic pain display interpretation and memory (recall and recognition) biases for pain-related information?	Daniel Gaffiero
PP036	Experimental (Basic) Science	Expression of the humanised chemogenetic tool PSAM4-GlyR regulates sensory neuron excitability and neuropathic pain	Jimena Perez Sanchez
PP037	Experimental (Basic) Science	Relieving chronic pain through inhibition of PICK1.	Kathrine Louise Jensen
PP039	Experimental (Basic) Science	Mechanisms contributing to the impact of early life adversity on morphine tolerance and mechanical hypersensitivity in mice	Samuel Singleton

BPS ASM 2023 POSTER LIST

Pub Number	Topic	Title	Presenter
PP040	Experimental (Basic) Science	The effects of healthy ageing upon spinal somatosensory networks in rats	Stephen G Woodhams
PP041	Experimental (Basic) Science	Intravenous lidocaine infusion reduces central sensitisation in patients with Fibromyalgia	Theresa Wodehouse
PP042	Education	Promoting Chronic Pain Management Education to patient while waiting for an intervention procedure or to be seen in an outpatient pain clinic	Yipei Serena Yen
PP043	Education	Developing the Postgraduate Certificate Course in Neuromodulation and Pain Management (PGCert) – the University Accreditation in Neuromodulation	Vivek Mehta
PP044	Interventional Pain Management	Four-Year Effectiveness of Restorative Neurostimulation in Patients with Non-Surgical Chronic Mechanical Low Back Pain	Vivek Mehta
PP045	Interventional Pain Management	Restorative Neurostimulation for Chronic Mechanical Low Back Pain – What is the Ideal Patient Profile?	Ashish Gulve
PP046	Interventional Pain Management	Effectiveness of Restorative Neurostimulation in Patients with Chronic Low Back Pain and Low Grade Non-Surgical Degenerative Spine Pathologies	Ashish Gulve
PP047	Interventional Pain Management	Comparing SCS and Conventional Medical Management in Patients with No Prior Back Surgery (SOLIS RCT)	James North
PP048	Interventional Pain Management	Real-World Outcomes in Patients Using SCS for Treatment of Painful Diabetic Peripheral Neuropathy (DPN)	Gassan M Chaiban
PP049	Interventional Pain Management	Protective multimodal analgesia with Etoricoxib and spinal anesthesia in inguinal hernia repair: a randomized controlled trial	Mostafa Somri
PP050	Interventional Pain Management	Protective Analgesia in Caesarean Section Using Intravenous Paracetamol: A Prospective Randomized Controlled Trial	Mostafa Somri
PP052	Interventional Pain Management	Medial branch blocks - variation in process, variation in outcome	Neil Roberts
PP053	Interventional Pain Management	Real-World Outcomes Using Spinal Cord Stimulation for Treatment of Chronic Back Pain with No Prior Back Surgery	Richard Rauck
PP055	Interventional Pain Management	Restorative Neurostimulation for Chronic Mechanical Low Back Pain – Three Year Results from the United Kingdom Post Market Clinical Follow-up Registry	Simon Thomson
PP056	Interventional Pain Management	Utilization of Combination Therapy-Based SCS Programming in Chronic Pain Patients: A Real-World, Observational European Study	Simon Thomson
PP057	Interventional Pain Management	ECAP-Based SCS for the Treatment of Chronic Pain: Evoke Study 36-Month Outcomes	Simon Thomson
PP058	Interventional Pain Management	Spinal Cord Stimulation for Treatment of Bladder Pain Syndrome: A Case Report	Mohammed Yunus Khilji
PP059	Neuropathic Pain	Pre-emptive use of Lidocaine patches following Spinal cord stimulation implant to prevent Chronic Post-Surgical Pain and hypersensitivity	Mohammed Yunus Khilji
PP060	Neuropathic Pain	Simultaneous oral administration of tolperisone and pregabalin acutely reduces neuropathic pain in rats	Mahmoud Al Khrasani
PP061	Neuropathic Pain	Role of Spinal Cord Stimulator (SCS) in the management of neuropathic pain 52 years following brachial plexus avulsion injury	Clarissa Cheah
PP062	Neuropathic Pain	Characteristics, treatment, and healthcare resource utilisation in patients diagnosed with chronic pain in a United Kingdom Primary Care database	Dave Garrell
PP064	Neuropathic Pain	The treatment effects of amitriptyline on pain symptoms, quality of life and heart rate variability in burning mouth syndrome patients	Kanokporn Bhalang
PP065	Neuropathic Pain	Comparison between Neuropathic Corneal Pain (NCP) Patients with and without Non-ocular Facial Pain in terms of Quality of Life impairment	Leyla Mirzaee
PP069	Neuropathic Pain	Safety and Efficacy of Intravenous Immunoglobulin (IVIg) Treatment for Patients with Neuropathic Corneal Pain	Pedram Hamrah
PP070	Neuropathic Pain	Painful small fibre neuropathy following COVID-19 infection: clinical characteristics and skin biopsy signature.	Rosario Privitera
PP072	Neuropathic Pain	Case report: Efficacy of lidocaine intravenous infusions in treating spinal cord injury (SCI) related central neuropathic pain	Seung Cheol Kim
PP074	Neuropathic Pain	Topline Results from RELIEF-PHN 1: A Phase 2, Double-blind, Placebo-controlled Trial of LX9211 in the Treatment of Postherpetic Neuralgia Pain	Suma Gopinathan
PP075	Neuropathic Pain	Amputation in patients with CRPS in the lower limb – Experience from West Midlands	Thuya Win
PP076	Neuropathic Pain	Repeated treatment with high concentration capsaicin cutaneous patch: a retrospective chart review focussing on pain intensity and co-medication use	Tino Schubert
PP077	Neuropathic Pain	Effect of Korean Medicine Treatment in Patients with Postherpetic Neuralgia: A Retrospective Chart Review	Unhyung Lee
PP078	Non-Pharmacological Pain Management	Efficacy and safety of an infrared technology-based patch for treatment of acute to moderate low back pain: A phase 3 randomized clinical trial	Ali Mobasheri

BPS ASM 2023 POSTER LIST

Pub Number	Topic	Title	Presenter
PP079	Non-Pharmacological Pain Management	How individuals living with persistent pain helped support planning and relaunch of NHS Ayrshire and Arran Pain Management Programme	Clare Smith
PP080	Non-Pharmacological Pain Management	Testing the Acceptability and Safety of Virtual Reality for Pre-Operative Patients	Devjit Srivastava
PP081	Non-Pharmacological Pain Management	Flippin' Ayrshire: A Public Health approach to Persistent Pain	Emma Mair
PP082	Non-Pharmacological Pain Management	Intervention study using photobiomodulation therapy (PBMT) for patients with low back pain. A pilot study (NEBULA study)	Jennifer Robinson
PP083	Non-Pharmacological Pain Management	Distinct Neural Signatures of Multimodal Resizing Illusions: Implications for Chronic Pain Treatment	Kirralise J. Hansford
PP084	Non-Pharmacological Pain Management	The Opioid-Sparing Effect of Acupuncture after Abdominal Surgery: A Systematic Review and Meta-Analysis	Seunghoon Lee
PP085	Non-Pharmacological Pain Management	The synergistic effect of sensory stimulation and therapist's support on pain and the physical and mental health of the older adults	Sewar Khatib
PP086	Non-Pharmacological Pain Management	Chronic pain Choir – benefits of group singing in patients with chronic pain.	Sheila Black
PP087	Non-Pharmacological Pain Management	Beliefs in a trial of treatment for pain	Marcus Beasley
PP088	Non-Pharmacological Pain Management	Comparing characteristics and outcomes of individuals who participated in a trial versus those who did not	Marcus Beasley
PP089	Reviews	The relationship between the experience of poor sleep and pain in fibromyalgia: A qualitative meta-synthesis	Marcus Beasley
PP090	Reviews	Do virtual reality interventions improve preoperative anxiety and perioperative outcomes in adult patients undergoing elective surgery?	Kayleigh Maxwell
PP091	Reviews	A systematic review and meta-analysis of fMRI BOLD signal in chronic pain patients during ongoing and provoked pain	Khetam Al Faraj
PP093	Reviews	Harms associated with Suprascapular Nerve Block Interventions in the non-surgical management of acute and chronic shoulder pain: a systematic review	David Annison
PP094	Reviews	Efficacy and Safety of Low Dose Naltrexone (LDN) as a Treatment for Patients with Fibromyalgia	Robert Michael Bevan
PP095	Reviews	Intramuscular injections in management of orofacial pain and myofascial pain in temporomandibular disorders - current focus.	Zuzanna Nowak
PP096	Older People	Associations between serum oxylipin levels with clinical measures of pain and radiographic osteoarthritis in people with knee pain	James Turnbull
PP097	Older People	What is the evidence for use of immersive technologies for chronic pain management in an ageing population? A critical review	Margaret Dunham
PP098	Other (Research)	Willingness, Motivators and Barriers to using Anxiety-focused Apps in People with and without Chronic Pain: A Questionnaire Study.	Amy Hannah Dowse
PP099	Other (Research)	Exploring the treatment burden experienced by people living with persistent pain and multiple long-term conditions	Barbara I Nicholl
PP100	Other (Research)	The Alleviate Advanced Pain Discovery Platform Data Hub: a national resource for accessing and sharing pain data	Christian Cole
PP101	Other (Research)	Dancers in pain: developing a model for agency with chronic pain	Emma Meehan
PP102	Other (Research)	Patient perspectives on the outcomes of pain management programmes: a qualitative study	Gregory Booth
PP103	Other (Research)	Adverse drug reactions associated with the prescription of oral cannabis-based medicinal products: a post-marketing pharmacovigilance study.	Ayman Eissa
PP104	Other (Research)	The importance of being in a group for people with chronic non-malignant pain when tapering strong opioids: a process evaluation	Kate Seers
PP105	Other (Research)	Lived Experiences of Debilitating Period Pain Management	Parmis Vafapour
PP106	Other (Research)	Microfluidic cell culture system to investigate localised subcellular processes underlying sensory neuron sensitisation by PGE2	Rebecca Pope
PP107	Other (Research)	Melatonin and sleep parameters in patients with chronic pain: per protocol results from the DREAM-CP trial	Saravana Kanakarajan
PP109	Other (Research)	UK Medical Cannabis Registry: A Clinical Outcome Analysis Of Medical Cannabis Therapy In Chronic Pain Patients With And Without Sleep Impairment	Michael Platt
PP110	Other (Research)	Comparison Of Cannabis-Based Medicinal Product Formulations For Chronic Pain: A Cohort Study	Michael Platt
PP111	Paediatric	Multi-electrode array analysis of the functional maturation of the spinal dorsal horn over postnatal development	Neave Smith

BPS ASM 2023 POSTER LIST

Pub Number	Topic	Title	Presenter
PP113	Primary Care	Living with persistent pain: A multi-method qualitative study of reducing opioids in the context of a pain review in primary care	Charlotte Woodcock
PP114	Primary Care	Proactive Review of patients taking Opioid Medicines for persistent Pain led by Pharmacists in primary care Teams (PROMPPT): A Feasibility Study	Julie Ashworth
PP115	Primary Care	Understanding Persistent Pain (UPP): a Decision Aid Tool to inform management of persistent pain in pharmacy	Luis Enrique Loria Rebolledo
PP116	Primary Care	Acceptability of a prototype practice pharmacist-led proactive review for persistent pain in primary care (PROMPPT study)	Nicola Cornwall
PP117	Psychology	Self-Compassion in Chronic Pain: Evaluating the Self-Compassion Scale Short-Form and Exploring initial Relationships in Pain Outcomes	Jenna L Gillett
PP118	Psychology	Heightened Interoception in Adults with Fibromyalgia	Jennifer Todd
PP119	Psychology	Prospective predictors of suicide risk in patients with chronic pain: An investigation into the role of mental defeat	Kristy Themelis
PP121	Service Management	Pain Concern's Telephone Helpline	Heather Wallace
PP122	Service Management	The impact of a pharmacist-led chronic pain clinic in opioid deprescribing for adults within a neuro-musculoskeletal pain service: Service Evaluation	Meeta Patel
PP123	Service Management	A Review of the Appropriateness of Referrals for Chronic Pain Services at Epsom & St Helier NHS Trust	Samina Shah
