

BPS ASM 2023 SCIENTIFIC PROGRAMME
9 - 11 May 2023

Legend	Plenary Sessions	Parallel Sessions	Industry Satellite Symposia	Society Meetings
Tuesday, 9 May 2023				
Time Slot	HALL A	HALL B	HALL C	HALL D
11:00 - 11:15	Welcome			
11:15 - 11:55	<p align="center">Plenary Session 1 BPS Lecture <i>Chair: Arun Bhaskar</i></p> <p>How can we improve primary care management of MSK pain? Jonathan Hill, UK</p>			
11:55 - 13:15	LUNCH BREAK / POSTER VIEWING / EXHIBITION			
12:15 - 13:15	Nevro Industry Satellite Symposium			
13:15 - 14:35	<p align="center">Parallel Session A1: Pain at Work from Different Perspectives; Transition, Quantifying Impact; and Policy <i>Chair: Elaine Wainwright</i></p> <p>Transition from school to work for young people living with chronic pain: what works best and what we can do next to support these young people better? Elaine Wainwright</p> <p>Quantifying the Impact of Chronic pain on engagement in paid work (QUICK): The importance of patient perspectives, Martin Stevens</p> <p>The policy context of research seeking to improve work outcomes among individuals with chronic pain, Joanna McParland</p>	<p align="center">Parallel Session A2: Novel Strategies to Tackle Pain: Multi-Pronged Approaches for a Heterogenous Problem <i>Chair: Kirsty Bannister</i></p> <p>Using patient antibodies to better understand pain mechanisms, John Dawes</p> <p>Can we harness endogenous analgesic activity with immersive nature-based virtual reality environments? Sam Hughes</p> <p>Somatosensory profiling in people with Parkinson's: Cohort stratification, Kirsty Bannister</p>	<p align="center">Parallel Session A3: Spinal Cord Stimulation: Beyond Promises and Doubts <i>Chair: Cathy Price</i></p> <p>What are the challenges of carrying out randomised controlled trials evaluating spinal cord stimulation? Rod Taylor</p> <p>Implanted spinal neuromodulation interventions. What does the evidence really tell us? Neil O'Connell</p> <p>What can translational research tell us? From the patient to the lab and back, Robert Brownstone</p>	
14:35 - 15:35	Pfizer Industry Satellite Symposium			
15:35 - 16:05	COFFEE BREAK / POSTER VIEWING / EXHIBITION			
16:05 - 17:05	Poster Viewing Session			
17:05 - 18:05	<p align="center">Best Poster Oral Presentations <i>Chair: Stephen Ward</i></p> <p>Delayed onset of morphine antinociceptive tolerance in rats treated chronically with glycine transporter-1 inhibitors, Anna Rita Galambos</p> <p>Temporal trends and prescribing patterns of initial opioid prescriptions following colectomy, 2010-2019: a cross-sectional study from England, Reham Baamer</p> <p>Using real-time mobile health data to characterise pain flares in rheumatoid arthritis, Ting-Chen Hsu</p> <p>Establishment of a transitional pain service in a district general hospital, Katrina Margaret Dick</p> <p>Does intrathecal drug delivery for cancer pain reduce pain scores and overall analgesic requirements at three months, Clare Bridgestock</p> <p>Prospective predictors of suicide risk in patients with chronic pain: An investigation into the role of mental defeat, Kristy Themelis</p>			
18:05 - 19:05				Interventional Pain Medicine SIG Meeting
18:05 - 19:30	Welcome Reception Exhibition Area			

BPS ASM 2023 SCIENTIFIC PROGRAMME
9 - 11 May 2023

Legend	Plenary Sessions	Parallel Sessions	Industry Satellite Symposia	Society Meetings
Wednesday, 10 May 2023				
Time Slot	HALL A	HALL B	HALL C	HALL D
08:00 - 09:10	<p align="center">Plenary Session 2 Prescribing - Opioid Tapering <i>Chair: Roger Knaggs</i></p> <p>Leveraging technology for patient-centred and patient-supported prescription opioid tapering, Beth Darnall, US Strategies for opioid deprescribing in England, Anthony Avery, UK</p>			
09:10 - 09:20	BREAK			
09:20 - 10:20	AGM			
10:20 - 10:50	COFFEE BREAK / POSTER VIEWING / EXHIBITION			
10:50 - 12:10	<p align="center">Parallel Session B1: Digital Data in Pain Research <i>Chair: John McBeth</i></p> <p>Using routinely collected electronic health record data to assess trends in opioid use and associated harms in chronic pain, Meghna Jani Digital body mapping of pain: Using technology to assess and visualise chronic pain, Syed Mustafa Ali Using sensors and wearables to develop and deliver personalised digital interventions for chronic pain, John McBeth</p>	<p align="center">Parallel Session B2: Early Life Experiences and Chronic Pain in Adulthood: A Multidisciplinary Approach to Understanding the Link <i>Chair: Tim Hales</i></p> <p>Introduction, Janine Rennie The assessment of adverse childhood experiences in adults with chronic pain: a comprehensive approach to get it right, Lesley Colvin What is the mechanism linking adverse early life experiences to chronic pain in adults: assessing and building on the epidemiological evidence, Gary J Macfarlane How adversity in early life affects pain and responses to opioid analgesics in adulthood in preclinical models, Tim Hales</p>	<p align="center">Parallel Session B3: Pain in Cancer Survivors: The New Challenge for Supportive Oncology <i>Chair: Sam H Ahmedzai</i></p> <p>I've overcome my cancer. So why am I living in pain? Felicia Cox Who are the cancer survivors, and why do they have persistent pain? Diana Greenfield What do pain management services have to offer for cancer survivors? Matthew Brown Open discussion, Sam H Ahmedzai</p>	<p align="center">Parallel Session B4: Pharmacogenetics and Pharmacogenomics: Relevance to Pain Management <i>Chair: Roger Knaggs</i></p> <p>Pharmacogenetics and pharmacogenomics and pain management: a primer, Paul Farquhar-Smith Predicting opioid response in cancer pain: clinical and pharmacogenetic considerations, Sophy Gretton NHS Genomic Medicine Service and pharmacogenomics in the NHS, Aris Saoulidis</p>
12:10 - 13:40	LUNCH BREAK / POSTER VIEWING / EXHIBITION			
12:30 - 13:30	Grünenthal Industry Satellite Symposium			
13:40 - 14:50	<p align="center">Topical Plenary 3 UK Biobank & Pain <i>Chair: Edmund Keogh</i></p> <p>Using OMIC data to understand chronic pain, Frances Williams, UK Using population-based studies to understand the epidemiology of chronic pain: current knowledge and future prospects, Gary Macfarlane, UK</p>			
14:50 - 15:00	BREAK			
15:00 - 16:20	<p align="center">Parallel Session C1: Long Term Effects of Opioids <i>Chair: Paul Farquhar-Smith</i></p> <p>Opioid use disorder and the cancer patient, Paul Farquhar-Smith The science behind opioid induced hyperalgesia and tolerance, Kirsty Bannister Opioids and cancer: the final word? Matt Brown</p>	<p align="center">Parallel Session C2: Future Directions in Pain Psychology <i>Chair: Edmund Keogh</i></p> <p>Challenges with embedding sex and gender into pain research (and some solutions), Edmund Keogh Scaling access to pain care: A 1-session evidence-based intervention for acute, chronic and post-surgical pain, Beth Darnall How understanding change could improve pain management? Katja Wiech</p>	<p align="center">Parallel Session C3: Interventions in Advanced Cancer <i>Chair: Ashish Gulve</i></p> <p>Intrathecal drug delivery in advanced cancer pain, Sheila Black Role of neuromodulation in cancer survivors, Ashish Gulve Neurolytic procedures in advanced cancer, Arun Bhaskar</p>	<p align="center">Parallel Session C4: Pain After Solid Organ Transplant – A Complex Problem How to Help the Fear Avoidant Practitioner – A Guide to Management <i>Chair: Ian D Goodall</i></p> <p>Incidence, aetiology and predisposing factors for pain after Solid Organ transplantation, Ian D Goodall What Pain medication can we reasonably prescribe after SOT. Improving understanding of potential drug interactions, Haifa Lyster The importance of psychological support therapy before and after SOT, Melissa Sanchez</p>
16:20 - 16:50	COFFEE BREAK / POSTER VIEWING / EXHIBITION			
16:50 - 18:00	<p align="center">Plenary Session 4 Pain and the DRG <i>Chair: Stephen Ward</i></p> <p>The DRG as a pain generator and what to do about it, Marshall Devor, Israel Recent advances in electrical neuromodulation: Combined spinal cord and dorsal root ganglion stimulation in the management of refractory neuropathic pain, Adnan Al Kaisy, UK</p>			
18:00 - 19:00			Medicolegal SIG Meeting	Pain in Older People SIG Meeting

BPS ASM 2023 SCIENTIFIC PROGRAMME
9 - 11 May 2023

Legend	Plenary Sessions	Parallel Sessions	Industry Satellite Symposia	Society Meetings
Thursday, 11 May 2023				
Time Slot	HALL A	HALL B	HALL C	HALL D
08:30 - 09:40	<p align="center">Plenary Session 5 Pain and Cognition: A Reciprocal Relationship <i>Chair: Cathy Price</i></p> <p>The impact of cognition on pain, Katja Wiech, UK The impact of pain on cognition, Edmund Keogh, UK</p>			
09:40 - 10:10	COFFEE BREAK / POSTER VIEWING / EXHIBITION			
10:10 - 11:30	<p align="center">Parallel Session D1: Supported Opioid Tapering – Emerging Evidence from UK Research <i>Chair: Roger Knaggs</i></p> <p>Improving the wellbeing of people with opioid treated chronic pain, findings from a randomised controlled trial, Harbinder Sandhu Can being a lay facilitator support people in opioid tapering? Experience of the I-WOTCH Intervention, Colin Tysall Developing a Proactive clinical Review of patients taking Opioid Medicines long-term for persistent Pain led by clinical Pharmacists in primary care Teams (PROMPPT): Enabling a practice-based approach to reduce opioid overprescribing, Sarah Harrison</p>	<p align="center">Parallel Session D2: The Social Impact of the Pain Experience: Perspectives from Injustice, Stigma, and Racial Disparities in Pain <i>Chair: Joanna McParland</i></p> <p>Parental perspectives of injustice in the context of their child's chronic pain: An interpretative phenomenological analysis, Joanna McParland The experience and impact of stigma and discrimination in people with pain, Whitney Scott Racial disparities in pain care: the role of observers' attentional processing of the pain of others, Ama Kissi</p>	<p align="center">Parallel Session D3: Meet the Experts Sessions 1</p> <p align="center">Ultrasound imaging for common pain problems</p> <p>Manojit Sinha, Kiran Sachane, Piera Santullo, Major Tammar Al-Ani</p>	<p align="center">Parallel Session D4: Meet the Experts Sessions 2</p> <p align="center">“When is a flare up not a flare up”</p> <p>Ian Goodall, Jacqueline Walumbe, Diarmuid Denny <i>An interactive session looking at how to differentiate the new from the old.</i></p>
11:30 - 13:00	LUNCH BREAK / POSTER VIEWING / EXHIBITION			
11:50 - 12:50	<p align="center">Oral Poster Presentations 1 <i>Chair: Paul Cameron</i></p> <p>Clinical hypnosis for procedural pain and distress in children: A scoping review, Dali Geagea Liposomal bupivacaine for peripheral nerve block in total knee arthroplasty: functional outcomes, Matthew Sinnott Beliefs in a trial of treatment for pain, Marcus Beasley Peri-operative intravenous lidocaine effect on acute and chronic pain after breast cancer surgery: a systematic review and meta-analysis, Leticia Helena Kaça Do Carmo Dancers in pain: developing a model for agency with chronic pain, Emma Meehan Painful small fibre neuropathy following COVID-19 infection: clinical characteristics and skin biopsy signature, Rosario Privitera</p>	<p align="center">Oral Poster Presentations 2 <i>Chair: David Pang</i></p> <p>Real-world outcomes in patients using SCS for treatment of painful Diabetic Peripheral Neuropathy (DPN), Gassan M Chaiban Restorative neurostimulation for chronic mechanical low back pain – Three year results from the United Kingdom post market clinical follow-up registry, Simon Thomson Comparing SCS and conventional medical management in patients with no prior back surgery (SOLIS RCT), James North Protective multimodal analgesia with Etoricoxib and spinal anesthesia in inguinal hernia repair: a randomized controlled trial, Mostafa Somri Four-year effectiveness of restorative neurostimulation in patients with non-Surgical chronic mechanical low back pain, Vivek Mehta Harms associated with Suprascapular Nerve Block Interventions in the non-surgical management of acute and chronic shoulder pain: a systematic review, David Annison</p>	<p align="center">Oral Poster Presentations 3 <i>Chair: Sam H Ahmedzai</i></p> <p>Audit of rapid access epidural pathway for acute severe sciatica, Namita Arora Online pain education sessions with and without dedicated pain medication and collation of GP appointments for chronic pain pre and post online group, Neil Clark Persistent post-operative opioid use and opioid stewardship in Aberdeen: a cohort study, Sandra Hapca Multi-site chronic pain and cognitive function: a cross-sectional study of UK Biobank, Eoin Kelleher Adverse childhood experiences and adult pain: opportunities and limitations of existing cohort data, Kate A. Timmins Epidemiology of chronic shoulder pain in people aged 40 or older – a systematic review and meta-analysis of observational studies, Noof Alotaibi</p>	<p align="center">Oral Poster Presentations 4 <i>Chair: Dev Srivastava</i></p> <p>EEG as a measure of pain: an experimental study, Charlotte V Ide Walters Expression of the humanised chemogenetic tool PSAM4-GlyR regulates sensory neuron excitability and neuropathic pain, Jimena Perez Sanchez The effects of healthy ageing upon spinal somatosensory networks in rats, Stephen G Woodhams Exploring the treatment burden experienced by people living with persistent pain and multiple long-term conditions, Barbara I Nicholl Microfluidic cell culture system to investigate localised subcellular processes underlying sensory neuron sensitisation by PGE2, Rebecca Pope Simultaneous oral administration of tolperisone and pregabalin acutely reduces neuropathic pain in rats, Mahmoud Al Khrasani</p>
13:00 - 14:10	<p align="center">Plenary Session 6 BPS Debate: This House Believes that Amputation should be Offered for Intractable Neuropathic Pain <i>Chair: Felicia Cox</i></p> <p>For the motion, Barnabas Green, UK Against the motion, Mike Sidery, UK</p>			
14:10 - 14:50	<p align="center">Plenary Session 7 Pat Wall Lecture <i>Chair: Roger Knaggs</i></p> <p>The top-down control of pain in health and disease: From bedside to bench, Kirsty Bannister, UK</p>			
14:50 - 15:10	Poster Awards & Closing Ceremony
